

## NAZI CHUTISTS DROP BEHIND RED LINES

GANDHI TO LEAD  
STRIKE AGAINST  
BRITISH RULE

Disobedience Campaign  
Planned If India Is Denied  
Freedom.

**BULLETIN**  
By The Associated Press  
LONDON, Aug. 5.—The work-  
ing committee of the All-India  
Congress party adopted a 1200-  
word resolution today, demand-  
ing withdrawal of British  
power so as to enable India to  
become an ally of the United  
Nations and fight aggressors.  
Reuters reported from Bombay.

(More on India on Page 2)

**WASH., Aug. 5.—**The All-  
Congress party working  
committee today adopted a resolu-  
tion recommending that Mohandas  
Gandhi be given full powers  
to lead a civil disobedience move-  
ment. Britain rejects a demand  
for Indian independence.

The committee also presented to the committee  
a proposed resolution which  
was accepted by both the working  
committee and the whole commit-  
tee meeting here Friday, would  
urge the party to armed resistance  
against any Japanese aggression  
against India.

**Would Support Allies**  
The draft resolution stated that  
the Congress party would support  
the United Nations, and un-  
reservedly declare itself on the side  
of the United Nations, agreeing to  
fight the Japanese or any other  
aggressor with armed resistance.

A new draft was described as  
being to meet "reasonable and  
practical" criticism which fol-  
lowed the British disclosure a few  
days ago of the draft of a resolution  
by Mahandas K. Gandhi which  
called for the first move of an  
independent government would  
probably be to negotiate with  
Japan.

A British broadcast, heard in  
New York by CBS, said Gandhi  
was reported to have addressed  
the committee for an hour and  
a half, this morning.

(It had there was no indication  
whether he would forward the new resolu-  
tion.)

**Unanswered Question**  
(There was a question still  
unanswered whether this was a  
manifestation of the dominant con-  
gress viewpoint or a competitive  
resolution offered by dissenters  
who are not so influential.)

Gandhi reaffirmed today his  
policy of non-violence between  
India and Japan, but declared  
that he was in his most unguarded  
moments expressing the opinion that  
Japan and Germany would win  
the war.

On the contrary I often have  
expressed the opinion that they  
will not win the war if only Britain  
and the United States are united  
and the Japanese are defeated.

**EMPLOYMENT STILL  
RISING IN MARION**  
Peaches New High of 10,353,  
Increase of 505 Over June.

Local employment in Mar-  
ion rose to 10,353 workers listed  
in the industrial plants, the  
highest in the several years.  
Records have been kept  
monthly by the Chamber of Com-  
merce since 1935.

The July total represented  
an increase of 505 over the June  
total of 9,848 and was almost  
equal to the 10,352 em-  
ployment figure for July a year  
ago.

Indications of the gen-  
eral trend during the month  
were given by building  
permits. Sixty-one permits total-  
ing 550 in value were given  
as against 50 permits to-  
tal of 400 in June and as  
against 35 permits to-  
tal of 234 in May.

Automobile sales listed in  
Marion for the month of June  
were 388 in June, 10,097 in June  
and 10,097 in June.

## SCENES AT CLEVELAND AS FIRE HIT BIGGEST CIRCUS IN WORLD

FOUR STATES  
CAST BALLOTS

Labor and Pre-Pearl Harbor  
Stands Chief Issues in Con-  
gressional Races.

**By The Associated Press**  
Congressmen in Virginia, Kan-  
sas, Missouri and West Virginia  
successfully weathered renomina-  
tion tests in yesterday's primary  
day balloting.

Unofficial tabulations in the  
contests in which chief issues  
were labor and pre-war foreign  
policies, gave victory to Virginia's  
only two representatives who  
faced Democratic opposition, to  
Senator Arthur Capper, veteran  
Republican, and Governor Matinee  
McNeely of West Virginia in his  
contest with former Governor H. G.  
Kump for the Democratic nomi-  
nation to the U. S. senate.

Twelve representatives won re-  
nomination in Missouri. Richard  
M. Duncan, veteran Democratic  
congressman, defeating former  
circuit judge Ferd M. Frank-  
lin after an early neck and neck  
race.

**Close Call, but Wins**  
Representative Walter C. Ploer,  
St. Louis Republican, also had  
a close contest in beating out six  
opponents in a campaign based  
solely on his pre-Pearl Harbor  
voting record. Five other incum-  
bents won handily and five more  
were without opposition. Nomina-  
tion for the seat to be vacated by  
retirement of veteran Represen-  
tative Joseph B. Shannon, Kansas  
City Democrat, was won by Roger  
C. Slaughter.

In Kansas, Andrew Schoepfel,  
former state corporation commis-  
sioner and youngest in the  
Republican gubernatorial  
race, won the nomination from  
three opponents. Lieut. Gov. Carl  
Freund, U. S. Senator Clyde M.  
Reed, and Thale P. Skovgard, a  
political newcomer.

W. H. Burke, Little River stock-  
man who lost the gubernatorial  
election two years ago by 450  
votes, won the Democratic nomi-  
nation. Former Senator George  
McGill acquired a wide lead over  
three opponents for the Demo-  
cratic senatorial nomination.

**Strike For Wins**  
Representative Howard W. Smith,  
author of bills to revise the  
Wagner labor relations act and  
other labor legislation, won re-  
nomination.

Medical Science  
Comes To Aid of  
Circus Animals

CLEVELAND, Aug. 5.—Medi-  
cal science latest treatment for burns  
was applied today to beasts who  
survived a fire which killed 39  
wild and tame circus animals.

The 20-minute conflagration  
yesterday destroyed the menagerie  
tent of Ringling Bros. and Bar-  
num & Bailey circus, burning to  
death or suffocating 30 animals  
while nine others were shot to  
put them out of misery. All were  
on display at the circus out had  
no part in performances under the  
big top.

The burned but rescued animals  
were painted with gallons of  
oil, a new medicine used  
especially for treating industrial  
burns.

Long-handled brushes were used  
to deodorize wild beasts. Tannic  
acid solutions were applied to the  
tender animal skin under direction of  
Dr. J. Henderson, Ringling's chief  
veterinarian.

Cause of the blaze was not  
definitely determined, but Chief  
Louis P. Frisch of the fire pre-  
vention bureau said he believed  
the fire was started by either a  
carelessly thrown cigarette or a live  
coal from a passing railroad en-  
gine. The circus was pitched on  
the downtown lakefront.

As circus hands gathered for  
lunch, flames broke out between  
the menagerie tent and the horse  
tent, Pritsen said.

John Ringling North, circus  
head, estimated the damage at  
\$100,000 although a complete in-  
ventory of animal losses in the  
menagerie's 18 cages and rows  
of tethered beasts had not yet  
been completed.

There was no insurance on the  
damage because it is a circus "is-  
sued as an extremely hazardous  
show," the insurance company ex-  
plained. Frank Braden, the or-  
ganization's publicity man.

Animals destroyed by flames or  
shot by police and coast guard-  
men included 10 camels, nine  
zebras, three elephants, five lions,  
three deer, a puma, and two each  
of the tigers, Indian donkeys,  
graffiti, and brindle guus.

All the performing animals and  
price attractions, including the  
giant gorilla, Gargantua, and his  
bride, Toto, were saved.

The show under the "big top"  
was held as usual last night, at-  
tracting 11,000 persons.

PROBE BLACK  
STEEL MARKET

Ship Builder Charges Ware-  
houses Sell Supplies at  
a Premium.

**By The Associated Press**  
NEW ORLEANS, Aug. 5.—Two  
investigations were promised to-  
day into charges made before a  
congressional subcommittee here  
that a "black market" in steel  
existed where "immediate deliv-  
ery was made" from building  
warehouses scattered over the na-  
tion.

Price Administrator Leon Hen-  
derson in Washington ordered an  
immediate probe by the OPA of  
charges made yesterday by Frank  
Higgins, associated with his father,  
A. J. Higgins, in shipbuilding  
steel from such markets as "higher  
premiums."

Prior to Henderson's order  
investigations were promised to  
President Roosevelt at a Wash-  
ington press conference said he  
thought persons who sold steel in  
such markets should go to jail  
and that the charges should be  
investigated.

The second investigation was  
promised by Rep. Peterson (D-  
La.) at a hearing yesterday.

FWA OFFICIAL  
GETS HOSPITAL  
FUND REQUEST

Mayor and Architect Given  
Encouraging Statement  
on Marion Project.

Marion's application for \$150-  
000 in federal funds to finance  
construction of a temporary ad-  
dition to Marion City hospital  
was placed in the hands of Dr. R.  
Kennecott, regional director for  
the federal works agency in Chi-  
cago yesterday by Mayor R. C.  
Snare and Thomas D. McLaughlin,  
Lena architect retained by the  
city for the hospital project.

Mayor Snare this morning said  
the city received definite encour-  
agement in its plans to construct  
the temporary addition but said  
quick action was needed to con-  
sider the city's ability to pro-  
vide between \$10,000 and \$20-  
000 as the sponsor's share of the  
cost.

The city can decide between  
two methods of pushing its ap-  
plication for federal funds. Mayor  
Snare quoted Mr. Kennecott as  
saying:

"The first would be to leave the  
city's application as it stands now,  
asking the federal government for  
all of the \$150,000 needed to con-  
struct and equip the addition.  
However, if the federal govern-  
ment furnishes all of the funds,  
it will build the addition itself  
and will insist that title to the  
property on which it is built be  
turned over to the federal gov-  
ernment. When the addition was  
finished, the government prob-  
ably would offer to lease it to the  
city, the mayor said. One thing  
is definite, if this method is fol-  
lowed, the federal government  
would insist on ownership of both  
the addition and the land, and the  
city partially would lose con-  
trol over the hospital, since it  
would be obliged to meet provi-  
sions of a government lease be-  
fore it could operate the addi-  
tion."

**Sponsor's Financing Plan**  
The second method would be  
for the city to put up sufficient  
funds—somewhere between \$10-  
000 and \$20,000—as the sponsor's  
share and ask the federal govern-  
ment for the remainder, which  
would be somewhere around  
\$135,000. Mr. Kennecott told Mayor  
Snare and Mr. McLaughlin yester-  
day that if this plan is fol-  
lowed, the federal government  
would have no voice in the opera-  
tion of the hospital but would en-  
ter into the project only to the  
extent of providing funds. An-  
other point that encouraged offi-  
cials with regard to this propo-  
sal was Mr. Kennecott's state-  
ment that the city could supply  
its sponsor's share of the cost in  
the form of equipment for the  
addition. Thus, the city could  
spend its sponsor's share for  
equipment that would be useful  
later in a permanent hospital ad-  
dition and also would be given  
some credit by the government  
for any equipment moved out of  
the present hospital to the addi-  
tion.

Mayor Snare quoted Mr. Ken-  
necott as saying Marion could ex-  
pect quick action on its applica-  
tion if it can furnish a sponsor's  
share of the cost. If the city  
instead, asks the government to  
finance the entire project and  
then lease it to the city, the pro-  
ject would be delayed.

**Marion Retailers'  
Bond, Stamp Sale  
\$8,000 Over Quota**

Marion retailers went over  
their July "Retailers for Vic-  
tory" quota of \$20,000 by more  
than \$8,000 it was revealed in  
a compilation of war bond and  
stamp sales reported today by  
Jerry Passen, chairman of the  
committee of retailers.

The original quota for the  
month was \$10,000, which the  
retailers voluntarily doubled on  
American Heroes day.

A total of \$28,596.45 in stamps  
and bonds was sold, Mr. Passen  
reported.

**Realty Tax Collection  
Goes into Final Month**  
Owners of Marion county real  
estate today were reminded by  
County Treasurer Marion Blin-  
kins that Sept. 1 is the deadline  
for the June tax collection  
period.

The reminder came, Mr. Blin-  
kins said, because only \$250,000.00  
has been paid to date of an ex-  
pected \$400,000.00.

There will be no extension of  
the deadline, the treasurer an-  
nounced, and to avoid a late-  
ness rush he advised that prop-  
erty owners be sure to pay their  
taxes by the deadline.

tion of Scrap Metal and Fats.

A scrap metal and fats salvage  
drive is in charge of plans for  
the entertainment. Chief T. J.  
McFarland will arrange for the  
dance on Friday night, Aug. 14, to  
launch an intensive campaign to  
gather every piece of scrap metal,  
steel and other metals and all  
kinds of fats and grease. The  
drive is planned by a committee  
headed by Mayor R. C. Snare,  
which was organized last night in  
the municipal court.

Committees were named and  
plans outlined for the dance  
which will be staged on South  
Main street between Center and  
Church streets. Everybody in the  
city and county is asked to attend  
the rally and festivities will start  
at 9 o'clock. During a short inter-  
mission there will be brief talks,  
limited to two or three minutes,  
on the salvage drive by persons  
donating their services to the in-  
terest of the work.

**Traffic Arrangements**  
East and west traffic on both  
Center and Church streets will  
not be affected by the timing of  
Main street for the dance. The  
committee states Main street will  
be closed to traffic between Cen-  
ter and Church streets at 8:15  
o'clock and no parking signs will  
go up in that area at 8:30 p. m.

Music will be provided for en-  
tertainment, and a band and  
square dancing.

**Marion Woman Hurt Only  
Slightly in Three-Story Fall  
While Walking in Sleep**

A bruised back, scratches on her legs, right arm and neck, and  
a cut on her chin were the sum-total of injuries suffered by Miss  
Alta Pickering, division traffic superintendent for the Ohio Asso-  
ciated Telephone Co., in a sleep-walking plunge last night from her  
third floor apartment at the Lido apartments on Pearl street.

Not until she was in City hospital did Miss Pickering realize  
what had happened.

A "veteran" sleep-walker, she had torn the blind from the win-  
dow, plunged through the screen, landed on an awning of the win-  
dow of the apartment below, ripped it from its fastening and  
crashed through a grape arbor.

Apparently she was stunned when  
she landed in the grape arbor and  
was unconscious for about 15  
minutes.

The fact that she was complet-  
ely relaxed in sleep is believed to  
have saved her from more serious  
or fatal injury.

**Heard Awning Rip**  
Residents of the apartment  
building said later they heard the  
noise made when the awning ripped  
loose and the arbor crashed,  
but thought it was not in the  
vicinity and did not investigate.  
They said the commotion was  
about 9:30.

Neighbors in the first house  
south of the apartment building  
heard soft sounds about 9:15 and  
upon investigating found Miss  
Pickering unconscious beneath the  
grape arbor. The Edwin K. Smith  
ambulance was called and moved  
her to City hospital. A physician  
treated the cuts and scratches and  
she was moved to her home.

This morning Miss Pickering's  
back was giving her considerable  
trouble in walking and she re-  
mained in bed for the first time  
she was able to laugh about the ex-  
perience, but her friends also ex-  
pressed concern and Miss Pickering  
said that for the first time she  
was a bit concerned about her  
sleep-walking proclivities.

**Previous Narrow Escape**  
Since childhood Miss Pickering  
has walked in her sleep. Only  
last week a woman who was visit-  
ing her caught her as she was  
crouched on the sill ready to leap  
from the window from which she  
plunged last night.

She said that usually when she  
walks in her sleep her dreams  
have been of attempting to get  
out of a place where she is being  
"closed in." When she walks it is  
towards the light.

Last night both doors of her  
bedroom were closed and she ap-  
parently sought the light of the  
window, ripping the blind off in  
attempting to get through a  
door.

Yesterday she was out of the  
city most of the day on business  
in connection with her position  
with the telephone company and  
was "dead tired" when she came  
home about 7. It was about 8  
that she fell through the window  
and became a sleep-walker.

Gov. Bricker announced today

Bricker said the action was

HUNDREDS FALL  
FROM SKIES TO

German Forces Drive Deeper  
Into Caucasus Toward  
Rich Oil Fields.

**By The Associated Press**  
German mechanized formations  
continued their drive into the Cau-  
casus today, on the road to Rus-  
sia's vast oil fields, and hun-  
dreds of Soviet troops and hun-  
dreds of Soviet tanks were re-  
ported falling behind the lines  
in an attempt to paralyze  
Soviet communications.

German military dispatches  
said Adolf Hitler's SS (Elite  
Guard) troops had captured  
Kropotkin, 125 miles below Ros-  
tov on the railroad and oil pipe-  
line from the Caspian sea, and  
had reached the Kuban river  
along a 60-mile front.

The Nazis said their troops  
were continuing pursuit of de-  
feated Russians on a broad front.

Soviet dispatches still declared  
that the Russian struggle was rag-  
ing far to the north of Kropotkin  
and gave no inkling that the Nazis  
had advanced so far to the  
south.

Red Fleet, the Soviet navy  
newspaper, said Russian warships  
in the sea of Azov were shelling  
German troop columns and fus-  
tating Nazi attempts to move  
seaboard reinforcements into the  
battle south of Rostov. Red navy  
guns were credited with sinking  
an undisclosed number of German  
ships.

**Sea Fleet Endangered**  
A German spokesman declared  
that the position of the Russian  
Black sea fleet was "constantly  
more endangered" and that about  
70 small Red navy craft—mostly  
gunboats and motor torpedo-boats—  
massed in the Don river estuary  
had been "rendered homeless."

He said the Red fleet was "evi-  
dently seeking refuge in flight  
from the sea of Azov, but the  
strait of Kerch has already become  
a dangerous route for escape  
which can only be utilized at  
night with any hope of success."

German torpedo-boats were cred-  
ited with sinking a 6,500-ton  
Soviet cruiser in the Black sea.

The advance of German and  
allied troops in the eastern fore-  
front in the Caucasus continues un-  
interruptedly in two main col-  
umns along the coast of the Sea  
of Azov and via Voroshilovsk,  
the Nazis said.

"In pursuit fighting on the  
coast of the Sea of Azov, the Ger-  
man advance continues on a wide  
front."

Dispatches to Red Star said Ger-  
man "chulists" are driving from  
the cities in groups of 100 to 150,  
armed with machineguns, mine-  
throwers and automatic rifles.

Red Star said the aerial in-  
vaders were attempting to seize  
railway stations or other key ob-  
jectives and hold on until mo-  
torized land reinforcements at-  
tended.

**Turn for Worse**  
Owing to the situation appear-  
ing to have been a sharp turn  
for the worse along the 300-  
mile Don-Caucasus front with  
the Russian army withdrawing with-  
drawals in three main sectors de-  
spite bloody losses inflicted on  
the Nazis.

A mid-day bulletin from Soviet  
headquarters conceded that the  
Germans, sending waves of 30 to  
60 tanks smashing into Red army  
defenses, had broken through in  
the Belaya Glinia sector, 40 miles  
southwest of Voroshilovsk, in a  
drive threatening to trap  
Russian forces below Rostov.

"In the Belaya Glinia, sector,  
our troops fought a heavy engage-  
ment with enemy tanks and mo-  
torized units which had broken  
through," the Soviet command  
reported.

"Our troops withdrew to new  
defensive positions."

Other Russian withdrawals were  
acknowledged in the Timanyansk  
sector, 120 miles up the Don river  
from Rostov, and in the important  
Kletskaya sector, 80 miles north-  
west of Stalingrad.

A Vichy (French) broadcast re-  
ported that German advance  
traps striking far ahead of the  
main Nazi armies had penetrated  
to within 13 miles of Amvix, key  
junction on the rail line to the  
Maidkop and Baku oil fields.

**Trap for Russians**  
Amvix lies 40 miles west of  
Voroshilovsk, which the Germans  
reported they had captured yester-  
day.

If true, this would mean that  
the invaders were in a position  
to bottle up sizeable Russian forces  
defending the west side of the  
Caucasus land-bridge to the mid-  
dle East.

Dispatches from Moscow said  
the entire nation was aware of  
the fast-developing crisis, and the

**HARDIN CO. BUDGET FOR 1943 APPROVED**  
Auditor Predicts \$15,000 Balance at End of Year.

**KENTON, O., Aug. 5**—The Hardin county commissioners yesterday approved a budget of 1943 expenditures and said that the county, lacking any bonded debt of any kind, should end next year with a balance of more than \$15,000. The present balance in general funds is \$25,455.18 and the year-end balance should be \$26,875.53, Auditor W. B. Wilson said. Total estimated expenditures of \$211,200.24 in 1942 are slightly higher than the 1942 expense, due to reappportionment of real estate and other factors. However total receipts and balances should be \$226,875.53, leaving a margin for increased salary and supply cost.

## Do You Look Well in Blue?—Then Here Is How To Become One of the Waves

**By RUTH COWAN**  
Associated Press Writer  
WASHINGTON, Aug. 5—If you want to look well in blue, here are a few pointers on how to be a candidate for an officer in the "waves" in the new feminine naval reserve.  
Where to apply?  
Ask the postoffice for the address of the naval procurement officer for your district. Then write for an application blank, telling him specifically your age, education and business or professional experience.  
What are the conditions? There are three groups in the first 1,000 would-be ensigns and lieutenants:  
Group one. This will be composed of about 45 teachers, per-

sonnel directors, physical educators, statisticians, or supervisors of women, who will be invited to apply for commissions. They will train to be future naval instructors in the women's training school.  
Group two. About 300 women will be commissioned on a professional basis and assigned to administrative jobs to get the "waves" rolling.  
Group three. From 500 to 550 officer-candidates, enrolled as apprentice seamen, who if they stay in the swim will come out ensigns.

Age. Group one and group two must not be less than 21 or older than 30. Group three must be from 20 to 30, inclusive.  
Matrimonial status. Marriage is no bar. But the unmarried must agree not to wed during their training. After that it is okay.  
Group one and two must have no children under 12, and group three must be childless.  
All must be citizens, able to pass physical and mental tests, and of good reputation.  
Education. A baccalaureate degree or two years of college leading toward such a degree are required, plus not less than two years business and professional experience in fields the navy needs. Also two years of mathematics.

What kind of specially trained women are wanted?  
Those trained in business administration, engineering—civil, mechanical, aeronautical, electrical—in physics, radio engineering, astronomy, metallurgy, modern foreign languages, political science, economics, transportation, psychology, personnel, library science, telephone operation, for example.  
Will you be in the navy? You certainly will.

**PLAN FARM CAMP**

Legislation Suggested To Require Conformance To Set Specifications in Future Construction.

The question of whether Marion should have legislation, specifically setting forth regulations which must be met in laying new sidewalks in the city may be brought before council Monday night by the street and alley committee.  
Two years ago the suggestion that some governing legislation be enacted was brought before the committee, of which Earle C. Johnson, present councilman, was a member. Mr. Johnson said recently that no action had been taken and the matter had been dropped except for occasional unofficial discussion.  
Pearl H. Sells, chairman of the incumbent council committee on streets and alleys, said yesterday in a written request had been made to council but that even so the matter could still be considered as being before the committee.

**Admits Story of 1918 Air Exploits Is Hoax**  
By The Associated Press  
ASBURY PARK, N. J., Aug. 5—Jacob Von Wiegand, 53, arrested here on a charge of illegally wearing a U. S. military uniform, has admitted his long-standing tale of exploits as a German air ace during World war was imaginary. E. E. Conroy, assistant FBI director said.

The stories related in 1928 by "Captain Jack Von Wiegand" of his purported experiences while a member of Baron Richthofen's flying circus won him nationwide attention.

Conroy said Von Wiegand disclaimed his account of shooting down 22 allied planes, including one carrying Quentin Roosevelt, son of President Theodore Roosevelt. The FBI agent said Wiegand admitted his account was a publicity hoax and he had never been in Germany during the war, being interned as a German crewman in Hoboken in 1914.

## New Rationing Board Offices Open Over State; Those in District Listed

Director Outlines Reason for Changes, Explains Duties of Reorganized Boards.

As time goes on, no longer could be imposed upon boards relying on volunteers to help, borrowed space and inadequate facilities, the state director pointed out. When OPA decided to make the boards an integral and official part of OPA, two principal considerations made reduction of the number of boards necessary:

1. Budget limitations which made it impossible to provide paid staffs, rented quarters and supplies for 650 boards.

2. Administrative efficiency in keeping contact with and obtaining necessary reports from all boards.

**Work Load Reduced**

Under the new setup, no one board is expected to have a work load of more than 50,000 population, and no county of less than 30,000 will have more than one board unless the geography of the county makes it absolutely necessary. Under the old setup a board served populations as high as 300,000 while in others a board served populations of only 2,000 or 3,000.

The reconstituted local boards now are required to administer rationing, keep rationing records, receive and file retail price reports, act as distribution centers for OPA forms, official literature and information; receive and record complaints about price and rationing violations and forward complaints to proper OPA authorities.

**Activities Expanded**

Establishing of the boards in permanent addresses and with permanent staffs was necessary by expansion of rationing activities, and addition of certain functions under price administration, the director said. The burden of activity, which will be increased by other duties

was slouched in her chair, her face blotchy and her stare vindictive. She seemed to be unaware of anyone but Raeburn and the look on her face held Joyce until she saw someone move from the corner of her eye. It was Raeburn. He was offering the two remaining photographs to Ward Allen.

"Would you like these?" Allen took them. He stood very straight and stiff, and his blond face was colorless, his lips barely moving as he spoke.

"Thanks."

"Those clippings made a lot of trouble for you, didn't they?" Raeburn said. "It's too bad you didn't know."

Raeburn backed to the door. "Things have happened since you left. They deported your friend, the Countess, for one thing. And some of the undesirables have been weeded out of the police department. The truth about that charge against you came out some months ago—not publicly, but most of us knew."

He paused and explained: "Allen got in with the wrong crowd for a while in Caragua. He apparently regretted it later because he broke off with them. They resented it and did what they could to punish him."

Ward Allen stood motionless until it seemed that he did not intend to answer. Finally he said: "Perry Clarke knew the charges had been dropped and yet he—"

"—frame you?"

"Yes," Allen said. He looked at Hestor. "You could have told me the truth, too. You knew I'd been cleared."

Hestor gave no sign that she had heard. Raeburn reached behind him for the doorknob, turned it.

"I'm grateful to you," he said to Joyce, "for suggesting such a satisfactory bargain." Then, to the room: "Give me a reasonable chance and there'll be no trouble."

"Oh, sure," Fenner said, his voice thin and mocking. "We'll give you plenty of chance."

Raeburn looked at him, as though weighing the statement. "I'm not sure I can get out of the country, but I can at least start these photographs on their way. After that, I'll not care so much. There's just one more thing."

He turned to Della. "I'm sorry about last night, Miss Stewart. I hadn't expected you. I didn't know who it was and I tossed my coat over your face and grabbed you. When you fainted you slipped out of my arms and

"I did. Got his name from a telephone directory. He found Clarke and Mrs. Clarke for me. I went to her house one evening. There was a party on but Clarke met me outside. I told him I'd pay him twenty-five thousand dollars."

"And he believed you," Fenner said.

"Why shouldn't he?" He put the two rolled photographs in his pocket. "I think you know the rest of the story."

"He was really doing a job of selling out, wasn't he?" Fenner said.

"Wait a minute," Murdock said, glancing at Nason. "Is there some law in Caragua that says a man can't leave what he wants to a woman whether he's married to her or not?"

"Not that I know of," Raeburn frowned, then said: "Oh, I see what you mean—her marrying father before she was divorced? But this case was different. Fortunately, and for some reason of his own, no doubt, my father used a peculiar wording in his will. In effect he said that if, at the time of his death, he was still legally married to Hestor Losado, she was to receive the following bequests."

"Oh, oh," said Fenner. "That's the crusher."

Joyce looked at Hestor. She

struck your head on a chair. I should have been more careful."

He backed toward the door. Joyce sat up and got her feet under her; then Raeburn was gone and Fenner was moving towards the door in quick long steps, his hand sliding inside his coat.

Joyce ran across the room, meeting the detective at the door. "No, Jack."

"Look out," he said, not even looking at her. "She struggled to stay in front of the door and felt herself being thrust aside. "He can't get away with it."

"But he didn't do it!"

This time Fenner looked at her. His eyes were still narrowed, still suspicious, but he dropped his hand and stood back. "He was there. You saw him come out."

"Yes," Joyce said.

He grabbed the envelope from Miss Stewart.

"There must have been someone else there before him."

"Yeah," Fenner moved back. "Go ahead, I'll listen."

## MRS. MURDOCK TAKES A CASE

by George Harmon Cox

CHAPTER 42 Present For Ward

"A CLUB was what they said they wanted it for. They were getting members when I left. It would have been a club too, until the right time came. They offered Mrs. Clarke two hundred and fifty thousand. I offered the same but I couldn't pay more than twenty-five thousand in cash. She knew she would get the balance within a year or two, but she hated me and she refused my offer. Then I had a stroke of good luck. I had suspected all along that there had been some previous affiliation between her and Perry Clarke, but it was not until the day before she sailed that I learned anything definite."

"I had come to see her to make a final plea. I walked down the hall unannounced. They were taking in the patio and I heard

# Most of Public Blames Sinkings in Atlantic on Navy Warship Shortage

By GEORGE GALLUP

Director, American Institute of Public Opinion

PENNSYLVANIA, N. J., Aug. 3.—The American public is not inclined to believe that the enormous number of sinkings off the Atlantic coast are due to any laxity or inefficiency on the part of the navy. There are some who take that point of view, the largest number of voters interviewed throughout the nation by the Institute believe the sinkings are due to the fact that the navy's forces are widely dispersed over the globe—that the navy is not yet large enough to make it to meet the submarine menace in force.

A surprisingly large number of voters believe that the navy is not yet large enough to meet the submarine menace in force. The navy is not yet large enough to meet the submarine menace in force.

Dr. Gallup

Dr. Gallup, director of the American Institute of Public Opinion, said the institute's survey of a representative cross-section of the population from coast to coast on the following open question:

How do you account for the success of German submarines in sinking our ships along the Atlantic coast?

Voters gave a wide range of reasons, which fell into the following general categories:

Greater part of navy diverted elsewhere; navy not large enough yet to handle situation; patrol ships more necessary elsewhere.

Spies in this country; fifth column work; loose talk.

Germans had large number of submarines already built and use them cleverly.

Our Navy caught off guard; not smart enough.

Insufficient cooperation between army and navy.

Miscellaneous.

No opinion.

The miscellaneous category includes a few who blamed lights along the shore and lack of civilian cooperation. Some respondents gave more than one reason; hence the table above totals more than 100 per cent.

In a companion survey the country was asked what in its opinion constitutes the most important problem which the United States faces in winning the war.

The results show clearly that the shipping problem, including the combating of submarine attacks, is the one which is worrying the country most at the present time.

More than one-third (36 per cent) of all voters questioned named the shortage of shipping as the main problem. About one-fifth (18 per cent) consider speeding up production of all war materials the prime problem.

# Dimout Rule Halts Giants and Dodgers Again; This Time Giants Benefit

## Game Ends in 1-1 Tie Despite 4-Run 10th Inning Rally by Brooklyn; Senators Beat Yankees.

By The Associated Press

New York fans may never like "man-right" baseball, but they are now ready to admit that the dimout plays no favorites.

Twice in two nights the struggles of the Brooklyn Dodgers and New York Giants have been prematurely ended by the army regulations which require that floodlights must be extinguished an hour after sundown.

Monday this rule helped beat the Giants 1-1 when darkness smothered a promising rally in the last half of the ninth inning—the violent displeasure of a crowd of 37,365 fans assembled for the benefit of army relief.

Last night, however, the switching off of the Polo Grounds lights erased a four-run tenth-inning outburst by the Dodgers and gave the Giants a 1-1 tie which the teams will play off Sept. 6.

Pease, Reese, the Dodgers' little shortstop, hit a home run inside the park with the bases loaded to kayo Fiddler Bill McGee in the tenth with none out, but it didn't count because the inning never was finished.

Meet Again Tonight

The same teams meet in their third successive two-night game tonight, but this time across the city in Brooklyn.

Although the Dodgers didn't win, their National League lead was extended to 10 full games, their longest margin of the season, because the St. Louis Cardinals were set down 4-3 at Cincinnati.

The Pittsburgh Pirates captured a 2-1 decision over the Chicago Cubs on Frankie Gustine's only hit of the day, a single with two on in the 11th inning. Bob Klinger held the Cubs to seven hits.

At Philadelphia Jim Tobin limited the Phils to five hits, but was beaten 4-2 because the only runs the Boston Braves scored were on Tobin's own homer with a mate aboard in the seventh inning. This was the big right-hander's sixth circuit clout of the year and tied Hal Schumacher's National League record for homers by a pitcher. In winning, old St. Johnson pitched seven-hit ball.

Yanks Beaten

The New York Yankees were beaten 4-3 in a night game at Washington. Sid Hudson, going the route for the Senators, but errors, three by the world champions and two by Washington, helped decide the game.

Phil Marchildon, the standout hurler of the last place Philadelphia Athletics, held the Boston Red Sox to four hits to achieve his 13th triumph of the year by a 6-4 score.

Rudy York hit his 16th homer but the Detroit Tigers were beaten 5-4 by the Chicago White Sox in a loose pitching battle between two old-timers, Ted Lyons and Tommy Bridges.

Cleveland at St. Louis was postponed.

### He Can Ride!

This is Willie Turnbull, 17, of Hot Springs, Ark., who is the current sensation among jockey-race fans. Turnbull was aboard seven winners and lost an eighth by a photo finish at Rockingham Park, Salem, N. H., on a nine-race card. This tied the American record.

### Cleveland, Columbus To Clash in Legion Tourney

SPRINGFIELD, O., Aug. 5.—Cleveland, victor over Cincinnati's defending champions, meets Columbus today in the winner's bracket of the state American Legion junior baseball tournament.

Cleveland defeated Cincinnati 8 to 3 yesterday; Defiance edged Elyria 11 to 10 and Springfield Downed Lima 4 to 3.

### Chuck Klein Holds Run-Scoring Record

PHILADELPHIA—If experience counts, Chuck Klein is just the man to stand in the catcher's box and tell the Phil baserunners what to do next. The former National League home run king, now Uncle John Labert's right-hand man in the coaching department of the Phils, holds the Twentieth century National League record for runs scored in one season, 158 in 1930. "Sliding Billy" Hamilton, of the 1894 Phils, holds the all-time major league record, 196.

## Bill Stewart, Hockey Miracle Man, Is Most Versatile Major League Umpire

Only Man To Practice Sports Officiating in Two Top Games.

Wide World Features

All-time All-American versatility champion of the umpiring profession, Bill Stewart was a big league hockey referee before making the major leagues as a baseball umpire. He is the only man over to practice sports officiating as a 12-months job in 2 major professional sports, National League baseball umpire since 1933, and referee on the National Ice Hockey league official staff most of that time.

As an interlude to officiating Bill served for 112 seasons of ice hockey as a manager. In the course of this "vacation" he achieved fame as a "Miracle Man." His Chicago Black Hawks barely qualified for the playoff round of the 1936-37 hockey season, but under Bill's direction they scored a dark-horse victory over all contenders clubs to capture the top prize in hockey, the Stanley cup, equivalent of the World Series in baseball.

Bill's versatility shows in some of his athletic achievements. Back in 1906, '07, '08 and '09, he played football, baseball and competed in track for Roxbury, Mass., High. He wrestled in the 135-pound division and then went into organized baseball, playing in several minor leagues until he made the grade with Montreal in the International in 1917. He enlisted in the Navy during the World war and after it was over broke his pitching arm as he was to report to Chicago White Sox. He coached baseball at Harvard and Boston university, scouted for the Red Sox, and managed minor league outfits.

Finally in 1930 he started umpiring in the Eastern league. It took him just four seasons to reach the National league.

### Wolverines Own High Conference Win Total

ANN ARBOR, Mich.—The University of Michigan, during the 1941-42 athletic season, won two undisputed Western conference championships and tied for a third title.

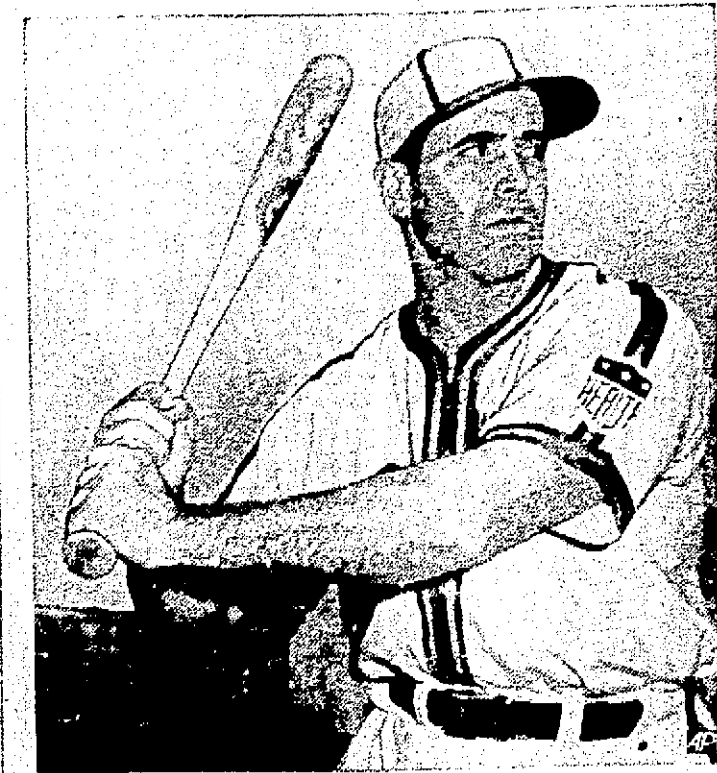

The swimming and golf teams won outright crowns while the Wolverines tied with Iowa at the conference list.

It was the twelfth consecutive year that the Wolverines were at the top of the heap in at least three sports—a record not even closely approached by any other conference member over the same period.

## Tommy Reis' Series of Victories For Blues Snapped at 10 by Indianapolis

By The Associated Press

The longest winning streak of the American association season came to an end last night when Tommy Reis, Kansas City right-hander, failed in an effort to gain his eleventh straight pitching success.

Reis, undefeated since Toledo turned the trick, May 19, appeared well on the way to continuing his string until the Indians tied the score in the ninth. In the

tenth, Reis' pitching rival, Ed Reed, led off with a single and finally brought home the run as gave Indianapolis a 5-4 victory when Jo Jo Moore's single.

Although losing the second game, Kansas City won the opener from Indianapolis and the margin over Milwaukee, who also split a double header. Charley Wensloff was responsible for the Blues' triumph, pitching for hit ball to shut out the Indians, to 0.

Milwaukee won the first game with Louisville, 5 to 4, on Max Griswold's homer with a mate aboard. The Colonels took the second, 7 to 5 despite a three-run last inning Brewer rally.

Columbus tied for second place Monday night, lost ground by losing to Minneapolis, 3 to 2.

NEW YORK, Aug. 5.—Fast Time Pastime: While fans still are talking about the sudden end of the Giants-Dodgers benefit game the other evening it seems like a good idea to point out that clubs can and do finish games in a lot less than two hours and 35 minutes. . . . The Sully League—"Mother of the Minors, Cradle of the Great"—has the same sort of dimout problem and Prexy E. M. Wilder reports that by barring all stalling they have cut the average time to about an hour and a half. . . . "As long as we can hold this record, the fans, the officials and everybody else concerned are satisfied," he adds. . . . Only official action to bring about this speed-up was a ban on mass arguments, but we understand a lot of the wasted time between innings has been cut out, too.

Plus Paragraph—When it was announced that the 37th (Ohio) division was somewhere in a battle area, Toledo golfers decided to put on a tournament Aug. 24 to raise a little dough for the canteen fund. . . . Inverness is waiving green fees that day, business men are contributing war bonds and stamps for prizes and pros, amateurs and public golfers will pay \$3 each to compete. . . . Toledo expects to raise \$1,000 but the folks there think that if other Ohio cities would pitch in they could make it ten grand.

Today's Guest Star—Ray Garrett, Hamilton (O.) Journal News: "Now that the banglows have vacated the fairgrounds oval, some of us can settle accounts by placing a 'plaster' on the family bus. What if we do lose it, the rubber shortage will soon render it unusable anyway."

## Honus Wagner Is Man Behind Buc Success

By International News Service

PITTSBURGH—Any wonder the Pittsburgh Pirates can hit that ball? On the bench, every day they see the man who holds the record for most times winner of the National league batting championship, the one and only Honus Wagner, champ in eight different years, the first, 1900, the last, 1911.

How great a hitter the big Dutchman was is portrayed perhaps most graphically by the 1908 averages. Wagner hit .354, second was Mike Donlin, .334, with Larry Doyle of the Giants and Kitty Bransfield of the Phils the only other players in the entire National league above .300. And Wagner, .354!!!

Mr. Keller came to Prospect in 1933 after graduation from Ohio university and one year of post-graduate work at Ohio Wesleyan. While at Ohio Wesleyan he won his numerals in basketball and track.

The first basketball team Mr. Keller coached at Prospect won the county title and tournament but was defeated by Ostrander in the district tourney. That year also marked victory for the Prospect track team and the first of a string of nine consecutive track titles in the county.

During his nine years at Prospect, the school won seven basketball titles, including consolation championships in the county tournaments. Keller's track teams have never lost a dual or triangular meet or a county meet of any type. Last year saw the completion of a record of 43 consecutive wins.

Last winter, Mr. Keller was selected to represent the 500 class B track coaches at a meeting of the newly formed Ohio High School Track Association. At that meeting he was elected third vice president of the association.

While majoring in physical education at Ohio university, Mr. Keller played with Sammy Kaye's orchestra.

# BICYCLE ORDINANCE DRAFTED AT CALION

GALLION, Aug. 3.—Taking the first steps toward the licensing of bicycles in Gallion, city council heard the first reading of an ordinance which would provide for city regulations of the two-wheeled vehicles, when they met Tuesday night.

Under the plan as it has been presented bicycle owners would submit their application for license to the police department and upon payment of 25 cents would receive a metal plate to be attached to the rear of their vehicle. Licenses will be issued from July 1 to July 1 of the following year.

Before issuance of such license tags, police officials will ascertain ownership as well as necessary safety equipment on the bicycle. It will be necessary for the bicycle to be equipped with headlight, tail-light and horn or bell. The passage of the ordinance will also necessitate the enforcement of regular traffic regulations upon operators of the bicycles.

# 23 MEN MISSING IN TWO MORE SHIP LOSSES

Sinkings Bring Atlantic Sub Toll To 412.

By The Associated Press. Twenty-three men were reported missing today from the sinkings of two merchant ships—British and United States—in submarine attacks at extreme ends of the submarine battlefield in the North Atlantic.

Ninety-five men, however, were rescued from the two vessels which brought The Associated Press total of announced sinkings in these waters since Dec. 7, to 412.

The U. S. cargo vessel, torpedoed early last week, 200 miles off the west coast of Africa, went down with the loss of 15 men after 47 survivors fought their way clear of their blazing ship.

Survivors of the British ship in an east coast port said three men were struck by their vessel July 21, killing four men when they were within ten miles of a Caribbean port. Forty-eight were rescued including five gunners.

# BICYCLE ORDINANCE DRAFTED AT CALION

GALLION, Aug. 3.—Taking the first steps toward the licensing of bicycles in Gallion, city council heard the first reading of an ordinance which would provide for city regulations of the two-wheeled vehicles, when they met Tuesday night.

Under the plan as it has been presented bicycle owners would submit their application for license to the police department and upon payment of 25 cents would receive a metal plate to be attached to the rear of their vehicle. Licenses will be issued from July 1 to July 1 of the following year.

Before issuance of such license tags, police officials will ascertain ownership as well as necessary safety equipment on the bicycle. It will be necessary for the bicycle to be equipped with headlight, tail-light and horn or bell. The passage of the ordinance will also necessitate the enforcement of regular traffic regulations upon operators of the bicycles.

# 23 MEN MISSING IN TWO MORE SHIP LOSSES

Sinkings Bring Atlantic Sub Toll To 412.

By The Associated Press. Twenty-three men were reported missing today from the sinkings of two merchant ships—British and United States—in submarine attacks at extreme ends of the submarine battlefield in the North Atlantic.

Ninety-five men, however, were rescued from the two vessels which brought The Associated Press total of announced sinkings in these waters since Dec. 7, to 412.

The U. S. cargo vessel, torpedoed early last week, 200 miles off the west coast of Africa, went down with the loss of 15 men after 47 survivors fought their way clear of their blazing ship.

Survivors of the British ship in an east coast port said three men were struck by their vessel July 21, killing four men when they were within ten miles of a Caribbean port. Forty-eight were rescued including five gunners.

# Family Reunions

By The Associated Press. GALLION.—One of the latest family reunions at Heles park Sunday was that of the Seaman-Dink family. It was the thirty-third annual gathering, and was attended by 14 relatives from Bucyrus, Nevada, Crestline, Gallion, Cleveland, Sulphur Springs, Shelby, Marion, Mansfield, Lexington, Monroe, and Brooklyn, N. Y.

Nine boys of the family were reported to be in the army. John Striker of Sulphur Springs was elected president. Elmer Seaman of Gallion vice president. Mrs. Lester Richmond of Gallion, secretary-treasurer. Mrs. Clara Richmond of Gallion, program chairman. Mrs. Donald Vochem of Gallion, entertainment chairman. It was voted to hold next year's reunion at the same time and the same place.

**STOCKS SEEK New York Stock Quotations LOWER GROUND**

12 O'CLOCK QUOTATIONS

Many Show Fractional Declines But Volume of Business Is Small.

By The Associated Press  
NEW YORK, Aug. 5.—A number of the stock market's bellwethers moved to lower ground today and the bulk of the list showed fractional declines, but the business done was small.

From 50 cents to \$1 or more a share car of the piles of U. S. Steel, Bethlehem, Union Carbide, American Telephone & Telegraph, Western Union and Western Union, but in no case was turnover unduly heavy. Timken Roller Bearing was down as much as two points on a lower dividend announcement.

A considerable part of the attention of the financial district was concentrated on the reception of the government's "tap" issue of 2 1/2 per cent bonds, the second time the treasury has tried the open-end method, which leaves the subscription books available for a limited period, so long as new orders in volume continue to come in.

As the offer is expected to take perhaps a billion dollars or so out of possible corporate investment channels, it has been watched closely by all types of brokerage and investment firms.

So far the big insurance companies, at which the offering seems to be particularly directed, have subscribed little less than the \$455,000,000 they took out of a total of \$682,000,000 in the offering in May, but other classes of investors have appeared in a better buying mood, and present indications are the May grand total might be exceeded.

With the government growing as the dominant factor in the direction of flow of investment money, all sections of the capital market have been paying added attention to the course of treasury finance.
